

### Physical Development:

- Use weather sounds and music as a stimulus for how they move e.g. fast flowing movements for the wind, quick sharp steps for the rain
- Build a weather station using various materials and equipment

### Maths:

- Time- seasons, months of the year
- Measurement- record the rainfall
- Data- produce a weather chart/graph
- Sorting and matching - items related to the different seasons

### Communication and Language:

- Talk about the different seasons and what happens in each
- Discuss why it is important to have the different seasons
- Discuss how it is across the world in regards to different seasons and different types of weather
- Talk about what you like to do during the different seasons

### Literacy:

#### Reading:

- Read poems about the weather and seasons
- Read different stories related to the seasons
- Read the temperature and rainfall on weather equipment

#### Writing:

- Write a non-fiction book about the seasons and the weather
- Write a weather report
- Pick a weather scene or picture of a season and write a caption underneath
- Write about your favourite season
- Write a holiday postcard

### Personal, Social and Emotional Development:

- Talk about how different seasons and types of weather make us feel like
- Look at how you can stay safe e.g. during winter and summer seasons
- Take turns and share during outdoor games

# Seasons and weather

## Rabbits' Class Reception- Autumn, Spring and Summer Term

### Music:

- Create music to simulate different types of weather
- Use body percussion to simulate weather
- Listen to songs related to the seasons and weather e.g The four seasons
- Learn songs about the seasons

### ICT:

- Computers:
  - How to use a mouse and keyboard
  - choose a program,
  - using a drawing program
- Watch videos of different weather phenomena's across the world
- Look at the videos that show the changes throughout the seasons

### Understanding the World:

- Measure the temperature everyday over a period of time
- Keep a daily weather forecast
- Talk about how the weather changes and why
- Talk about the different environments across the world and how the weather is influencing these areas
- Talk about the seasons and what happens during each season- discuss changes over time
